Frank Suarez-Milan

Led by design thinking and driven by innovation, I create engaging experiences that help tell stories. Outside of the office, I'm a board game enthusiast, a lover of languages and enjoy a good coffee.

Experience

MAR 2022 - PRESENT (Toronto, ON)
Product Designer at theScore
I research and design in-person casino experiences for theScore's retail sportsbook vertical.

APR 2021 - MAR 2022 (Toronto, ON)
Product Designer at Resolver Inc.
I researched & identified gaps in UX & design technically-focused solutions. I performed user & stakeholder interviews, conducted usability tests, & presented feature proposals to validate ideas & determine impact to the business. Working within the design system, I also managed & created re-usable system components for high/low fidelity prototypes.

NOV, 2014 - APR 2021 (Toronto, ON)
Product Designer at Channel 1 Media Solutions
I designed cross-functional products & experiences for the professional sports industry including the NFL, NBA, NHL, MLB, & MLS. I led research & innovation initiatives with respect to both user analysis as well as industry standards. I created HTML & JavaScript prototypes for motion studies, oversaw production specs, & facilitated design reviews with stakeholders. In addition, I worked closely with designers, developers, & product managers to drive and apply user-centered design processes.

MAY 2020 - PRESENT (Toronto, ON)
UX/UI Instructor at University of Toronto, SCS
I lead and facilitate the study of user experience and user interfaces in a fully remote learning environment. I aid in the development of individuals seeking guidance in their design career.
